ergowheel® tyre rack - more storage capacity. Professional tyre storage.

Quick, efficient and cost-saving - the most ergonomic tyre rack ever.

We did the math for you.

€ 59.900

profit after 5 years of using ergowheel

€ 40.700

profit after 5 years of using single-depth storage

We asked for you.

Finally we can use our storage areas better. Lying tyre storage on roller tracks makes storage and retrieval quick and easy for our employees. That brings us satisfied employees and since the wheels are stored on their hard-wearing back-side, they are protected from damages and customer complaints are virtually impossible.

Alexander Host, Hetzler Cars, Kassel, Germany

On the roll.

For storage professional.

We guarantee you the best possible utilisation of your storage space . After 2 years already, investment costs for the tyre rack are recouped and customer complaints due to damaged wheelset are a thing of the past.

For your safety.

Certified quality, protected by patent.

- » Bright-galvanised steel
- » Thermoplastic synthetic rollers
- » Rollers on steel axles

Putting it into practice. Can your tyre rack do this?

single-depth storage

ergowheel® - up to 30% more storage capacity.

Incredibly efficient when combined.

Only when combined, ergowheel shows its true strength and gives you maximum space utilisation and capacity gain. As a problem solver with 30 years of experience in the field of warehouse equipment, we excel in consulting and implementation. Let us assist you on your next project.

Simplified storage and removal

For less backaches.

Improved ergonomics keep employees satisfied and provide simplified storage and removal at peak times. The wheels roll towards the employee and there is no need for telescopic rods when handling storage and retrieval.

For satisfied customers.

Because satisfied customers are the best publicity. Horizontal storage keeps the customer's wheel damage-free. Your customer is pleased with the immaculate wheelset and therefore, your next season's business is safe.

For less stress.

It's that special time of the year again - but from now on, tyre storage causes you a lot less stress. The season's almost there and you need to adjust your racks? ergowheel is a stress-reliever for you and your employees, because even wheelsets of different sizes do not require any further rack adjustments.

We counted them for you.
